Total Access 3000 DSLAM Delivers Over 3000 Ports of ADSL.

HUNTSVILLE, ALA.-(BUSINESS WIRE)-May 27, 2003-ADTRAN(TM), Inc. (NASDAQ: ADTN), The Network Access Company and leading provider of telecommunications equipment, today announces enhanced capability and increased capacity from the Total Access(R) 3000, ADTRAN's full-service DSLAM. New network interfaces now bring OC-3c and global STM-1 capability to carrier networks using the Total Access 3000 DSLAM. Additionally, the expanded ATM multiplexer architecture allows ADTRAN to deliver over 3000 ports of ADSL in two 7-foot racks enabling carriers to cost-efficiently deploy ADSL from central offices.

"ADTRAN has firmly established itself in mid-density central offices and remote terminal applications," states Jay Wilson, director of product management at ADTRAN Carrier Networks Division. "With capital expenditure reductions, the fiber network interfaces and increased capacity of the Total Access 3000 DSLAM make it an attractive high-density solution for larger central offices."

The Total Access 3000 DSLAM is currently utilized in both central office and outside plant environments. The flexibility of this full-service DSLAM provides carriers with true scalability from TDM to ATM, T1/E1 IMA to OC-3c/STM-1, and from 224 to over 3000 ports. The Total Access 3000 DSLAM offers full QoS, standards-based technology, and local or remote management with ADTRAN's Total Access Element Management System.

ADTRAN understands the needs of telcos and service providers, and designs products such as the Total Access 3000 to meet cost, operational, and growth objectives for its customers.

About ADTRAN

ADTRAN, Inc. is one of the world's most successful telecom equipment suppliers, with a 17-year history of profitability and a portfolio of more than 1,000 solutions for use in the last mile of today's telecommunications networks. Widely deployed by both carriers and enterprises alike, ADTRAN solutions enable voice, data, video, and Internet communications across copper, fiber, and wireless network infrastructures. ADTRAN solutions are currently in use by every major domestic service provider and many international ones, as well as by thousands of public, private and government organizations worldwide.

ADTRAN products are RUS accepted and feature a five or ten-year warranty on every product. For more information, contact the company at 800 9ADTRAN (800 923-8726) or via email at info@adtran.com. On the web, visit www.adtran.com.
