CLEVELAND, March 2 /PRNewswire/ --

WHO: Peter Sandrev, President of InfoTelis Corporation, one of the area's fastest-growing tech companies and representatives from Sylanro, Polycom, TAMCO, and Adtran.

WHAT: Will explore the nature, quality and benefits of converged data and voice solutions, available options to small-to-medium size business in Cleveland, and the benefits of a hosted telecommunication solution.

WHERE: The Halle Building, 1228 Euclid Avenue, Suite 370, Cleveland, Ohio.

WHEN: Friday, March 10, 2006, 11:30 a.m. to 2:00 p.m. RSVP by March 6, 2006, (216) 373-4845 or bpretzer@infotelis.com.

WHY: Opportunity for leaders of small-to-medium size businesses, community representatives and the press to interact directly with industry experts through informal seminars and open question and answers.

About InfoTelis:

InfoTelis, headquartered in Cleveland, OH, USA, provides hosted communication solutions to small-to-medium size enterprises in the Cleveland area and beyond. InfoTelis' hosted solution presents a richer, more robust, feature with a lower total cost of ownership, a higher return on investment, increased flexibility and scalability, and faster deployment. For more information about InfoTelis, visit <http://www.infotelis.com/>.

About Sylanro Systems Corp.:

Sylanro Systems, based in Campbell, CA, USA, provides the premier software platform for advanced IP Centrex and hosted communications services for business, residential, wireless and other applications. Sylanro allows service providers to rapidly deliver high-value, high-margin managed telephony services without the cost and complexity of today's in-house PBX and key systems, and gives consumers new flexibility in their communications services. The company's application feature server is integrated into the Microsoft Solution for Enhanced VoIP services with wins in the US ILEC community and at SOFTBANK BB in Japan. Sylanro has also deployed at AT&T Inc, Swisscom, China Unicom, and at next generation service providers such as Covad and Lightyear Network Solutions. For more information please go to: <http://www.sylanro.com/>.

About Polycom:

Polycom, Inc. is the worldwide leader in unified collaborative communications (UCC) that maximize the efficiency and productivity of people and organizations by integrating the broadest array of video, voice, data and Web solutions to deliver the ultimate communications experience. Polycom's high quality, standards-based

conferencing and collaboration solutions are easy to deploy and manage, as well as intuitive to use. Supported by an open architecture, they integrate seamlessly with leading telephony and presence- based networks. With its market-driving technologies, best-in-class products, alliance partnerships, and world-class service, Polycom is the smart choice for organizations seeking proven solutions and a competitive advantage in real-time communications and collaboration. For additional information call 1-800-POLYCOM (765-9266) or +1-408-526-9000, or visit the Polycom Web site at <http://www.polycom.com/>.

About TAMCO:

Founded in 1994, TAMCO is a leading financial services and marketing company that focuses exclusively on acquisition solutions for the telecommunications industry. Our strategic partners include national and regional telecom dealers along with leading manufacturers of communications equipment. At TAMCO, we have the industry expertise to provide customer- focused solutions. Our people, with their vast knowledge and experience in communications and finance, develop successful business approaches to meet the challenges facing our strategic partners and their customers.

About ADTRAN, Inc.

ADTRAN, Inc. is one of the world's most successful telecom equipment suppliers, with an 18-year history of profitability and a portfolio of more than 1,300 solutions for use in the last mile of today's telecommunications networks. Widely deployed by carriers and enterprises alike, ADTRAN solutions enable voice, data, video, and Internet communications across copper, fiber, and wireless network infrastructures. ADTRAN solutions are currently in use by every major domestic service provider and many international ones, as well as by thousands of public, private and governmental organizations worldwide.
