HUNTSVILLE, Ala.-(BUSINESS WIRE)-May 19, 2003-ADTRAN(TM), Inc. (NASDAQ:ADTN), has announced that Dennis McMahan has been named Vice President, Integrated Circuit Development. In this position, McMahan will be responsible for ADTRAN's strategic and tactical circuit and chip development programs, covering all aspects of silicon development, chip design and proto-typing, for new and existing products. In this role, McMahan's technology group will support the Carrier Networks and Enterprise Networks Divisions of the Corporation.

"Dennis has an impressive record of success, most recently during his career at ADTRAN and prior to that with Motorola Corporation," said Mark Smith, ADTRAN's Chairman and CEO. "ADTRAN is known for quality design and technology applications and his extensive background will be a major asset to us as we continue to grow our business base."

McMahan has over twenty-two years experience in integrated circuit development and design for the telecommunications industry. He has held increasingly responsible engineering positions within the ADTRAN Design Engineering Groups since he joined the Company in 1989.

Prior to joining ADTRAN, McMahan held a variety of product design engineering positions with Motorola Corporation.

McMahan holds a Bachelor of Science in Electrical Engineering from Mississippi State University.

About ADTRAN

ADTRAN, Inc. is an established provider of advanced transmission products for today's expansive telecommunications networks. ADTRAN products support most major technologies, including internetworking, access routing, fiber, T3, T1, E1, E3, wireless T1/E1, ATM, Frame Relay, IP, VPN, ADSL, SHDSL, SDSL, HDSL, HDSL2, HDSL4, SONET, SDH, ISDN, and DDS. According to Gartner/Dataquest and IDC, ADTRAN has gained the leading market position in enterprise integrated access devices and HDSL, while maintaining its leadership position for the fourth year in a row in T1 and sub rate CSU/DSUs, Frame Relay/DDS extension, and ISDN extension. ADTRAN equipment serves the major Incumbent Local Exchange Carriers, interexchange carriers, ISPs, Competitive Local Exchange Carriers, international service providers, public and private enterprises, and original equipment manufacturers.
